

SKILLFORGE AI

Salon AI Playbook

Prompts, workflows, and templates for the chair -- client experience, operations, marketing

Built for owner-operators, GMs, and front-desk leads running independent and multi-chair salons with \$300K to \$3M in annual revenue.

20 salon workflows . 40+ copy-paste prompts . Client Experience / Operations and Bookings / Marketing and Retention sub-tracks . 30/60/90 adoption plan . House rules for AI on the chair

1. How to use this playbook

Salon AI Playbook

Salon owner-operators, GMs, and front-desk leads running independent and multi-chair salons with \$300K to \$3M in annual revenue. You already have a booking platform, a POS, and a full appointment book that still manages to leave 60-minute gaps every Tuesday. This playbook adds AI to the tool belt without making you a "tech person" to benefit.

Not a coding guide. Not a generic prompt dump. Every prompt in this playbook was written for the exact moment a salon operator hits it -- a no-show at 11:15am on a Saturday, a rebook conversation at the chair, a retail pitch at checkout that does not land, a before/after that deserves an Instagram post but never gets written.

2. Trade positioning statement

Every salon should be able to recite a positioning statement when a guest asks, "Why is your color more?" Try the one below -- it is engineered to lead with the work, then the value, then the durable relationship.

- "We design and maintain color the way our guests live in it -- protecting the tone they chose,
- refreshing it on a schedule that actually fits, and recommending the at-home routine that keeps
- the after-service gloss alive. That is why every visit ends with a clear rebook window, why our
- colorists never squeeze a consultation into five minutes, and why your stylist remembers the
- occasion you booked around. Over a year the difference is color that does not fade flat, fewer
- surprises on the bill, and a chair that feels like a place you go on purpose."

Adapt the tone to your region and guest mix -- but keep the three-part structure: what you do, how you do it, why the result compounds over a year.

Sub-track: Client Experience

Salon AI Playbook

The chair-side layer: how a guest feels walking in, through the consultation, out the door, and back into the booking link. The prompts here produce scripts the front-desk and stylists memorize -- warm, transactional, and built to be spoken in 90 seconds.

Workflow 01 . Chair-Side Greeting and Intake

The first 60 seconds at the chair set the tone for the next two hours. Use these prompts to train a consistent intake that reads the guest, the appointment, and the moment.

Prompt -- 60-second chair-side greeting script (A)

Build a 60-second chair-side greeting script for [STYLIST NAME] at [SALON NAME]. Context:- Guest name: [NAME]- Service today: [SERVICE] with [STYLIST NAME]- Last visit: [DATE] (and we said we would: [PROMISE FROM LAST VISIT])- Guest mood cues from the floor lead: [e.g. "rushed from work / first time back since a baby / celebrating / quiet preferred"] Produce a 4-line spoken script: opens with the guest by name (no "hi how are you today"), names one piece of context from the last visit, sets the consultation ask for today, and closes with a 2-second pause to invite the guest to share. Tone: warm, confident. No exclamation points. Plain ASCII.

Prompt -- Walk-in intake for a guest without an appointment (B)

Draft a 30-second walk-in intake line for the front-desk lead at [SALON NAME]. Guest profile:- First time in 18 months OR first time ever: [YES / NO]- Service they asked about: [SERVICE]- Note from the floor: [e.g. "looks like a color refresh / needs a scalp-soothing treatment / color-correcting case"] Produce a 3-sentence line: acknowledges the walk-in without an apology, names one option we can offer RIGHT NOW (a single-slot service, a same-day consultation), and proposes a single tap to take the option or hold the next opening. Tone: warm, never pushy.

Prompt -- Allergy / scalp-condition intake question (C)

Build a 1-sentence intake question [STYLIST NAME] asks before [SERVICE -- color / keratin / relaxer / extensions]. Reason to ask:- Re-open a documented [ALLERGY / SCALP CONDITION -- e.g. "PPD sensitivity / seborrheic dermatitis / recent hairline tattoo / scalp psoriasis"]- Confirm a temporary medication that may interact: [LIST -- retinoids / accutane / antibiotics] Produce a 1-sentence question the stylist asks BEFORE mixing the formula. It must: 1) reopen the allergy question without making the guest feel interrogated, 2) name 2-3 specific conditions or meds that matter for this service, 3) include a clean opt-out (the guest can say "no, all clear"). Tone: clinical-warm. Under 35 words. Plain ASCII.

Workflow 02 . Pre-Service Consultation Script

A 5-minute consultation is the difference between a color that photographs dull and a color that holds the season. Three prompts: the open-ended ask, the inspiration-photo parser, and the maintenance-honesty close.

Prompt -- 5-minute consultation opener (A)

Write the opening 5 lines of the consultation that [STYLIST NAME] runs at [SALON NAME] for [SERVICE -- e.g. dimensional color, lived-in balayage, blunt bob, keratin smoothing]. Inputs the stylist already has:- Guest's last visit notes: [PASTE 1-2 LINES]- Guest mood hint: [e.g. "wants low-maintenance / wants a

wardrobe change / celebrating / quiet"]- Service duration: [MINUTES]Produce 5 lines the stylist speaks in order:- Line 1: a no-pressure opener ("what would feel like a win today?")- Line 2: a prompt to confirm or contradict the prior appointment- Line 3: a question about maintenance tolerance (frequency + at-home time)- Line 4: a question about the occasion the guest has in mind (a wedding, a job change, nothing in particular)- Line 5: a hands-off pause ("take a beat and we will start on the dry cut first")Plain ASCII. No exclamation points. Under 90 seconds spoken.

Prompt -- Inspiration photo to actionable brief (B)

You are my color brief translator. Here is the guest's inspiration photo: [PASTE URL OR ATTACH].My read of the photo:- Tone: [e.g. "warm honey, level 6-7, dimensional, low-contrast root"]- Placement: [e.g. "face-framing lightness, soft mid-length shadow, ends slightly brighter"]- Vibe: [e.g. "summer / lived-in / expensive without shouting"]Tell me:1) The 2-3 features the guest almost certainly wants, in plain English2) The 1-2 features that look like the photo but are not photographable in our light (and how to flag that)3) The 1 service-floor risk that I should mention to the guest BEFORE we start (root overlap / banding / over-processing)4) A 1-pager CSS rebuild: lightener formula, developer volume, processing time, gloss for the tone, tone for the shadow.Plain ASCII. Under 350 words.

Prompt -- Maintenance honesty close (C)

Draft the maintenance honesty line for [STYLIST NAME] to use at the END of a [SERVICE] consultation at [SALON NAME].Service today: [SERVICE]Realistic refresh cadence: [EVERY N WEEKS]At-home routine needed to hold the result: [LIST -- purple shampoo / leave-in / heat protectant / oil]Produce a 3-sentence spoken line:- Sentence 1: names the realistic refresh cadence (no inflation)- Sentence 2: names 2 home-care moves that hold the result- Sentence 3: closes with the at-checkout language that links the routine to the products we carry, without a "would you like" -- names them by SKUTone: candid, never sales-y. Under 60 words.

Workflow 03 . In-Service Conversation Prompts

Between the mix and the rinse is the second conversation of the visit -- the one that decides whether the guest remembers you or just the color. Use these prompts to keep it warm without making it a sales floor.

Prompt -- In-process conversation opener (A)

Write 3 in-service conversation openers for [STYLIST NAME] to use during a [SERVICE] processing window.Context:- Guest is processing for [N] minutes- Guest mood: [e.g. quiet / awake-and-chatty / scrolling her phone / mid-celebration]- Service today: [SERVICE]Produce 3 openers, each different in tone:- Opener A: for a quiet guest (low-pressure, comfort-promoting)- Opener B: for a chatty guest (2 short questions that lead to a story)- Opener C: for an occasion-led guest (a wedding, a job change, a birthday) -- one question that lets her share the reason without probingEach opener: under 25 words. No "how are you today".

Prompt -- Watch-out moment (the quiet guest who has had a bad experience) (B)

Draft a 1-sentence line for [STYLIST NAME] to use when the guest goes quiet during a [SERVICE] processing window AND the guest's eyes are puffy / the guest has put her phone face-down.Rule: do not ask "are you OK?"; do not pry; do not diagnose. Just give the guest permission to be quiet with a small

kindness. Produce:- Sentence 1: a permission line ("you can sit in the quiet, I will bring you water when the timer goes")- Sentence 2: a non-medical offer of one option ("I can lower the basin light / hand you a magazine / dim the speaker")Tone: warm, not therapeutic. Under 35 words.

Workflow 04 . At-Checkout Aftercare Routine Recommendation

At-checkout is the single highest-margin moment in a guest visit. Two prompts: the spoken aftercare line the stylist delivers at the register, and the email follow-up that lands 24 hours later with the routine.

Prompt -- At-checkout aftercare routine line (single SKU) (A)

Draft the spoken line [STYLIST NAME] uses at checkout at [SALON NAME] for today's guest. Service today: [SERVICE] Guest's hair type / concern observed at the basin: [e.g. fine color-treated ends / frizz on the crown / dry mid-length / blunt line at the ear] Top SKU to recommend: [PRODUCT NAME / PRICE] Produce a 2-sentence spoken line:- Opens with a specific observation ("I noticed your ends were ...") that named the SKU directly fits- Names the SKU and ONE specific reason it fits the concern- NO "would you like to take this home today?" language Tone: confident, warm. Under 35 words.

Prompt -- Aftercare email that lands 24 hours later (B)

Draft the 24-hour aftercare email [STYLIST NAME] sends to today's guest at [SALON NAME]. Context:- Guest name: [NAME]- Service today: [SERVICE]- Stylist: [STYLIST NAME]- Recommended routine (1-2 SKUs): [SKU + PRICE] Produce a 4-paragraph email:- Para 1: thank-you line that names the service + the stylist (no exclamation points)- Para 2: 2-line recap of what was done (so the guest can replay the visit if she wants)- Para 3: the at-home routine in bullet points (no SKU links -- she buys next visit)- Para 4: rebook prompt in 1 line ("reply YES to grab the same time 6 weeks from today") Under 220 words. Plain ASCII. The 24h-after email IS the soft rebook.

Workflow 05 . At-Checkout Rebook Script

The rebook is two moments: a 30-second ask at the register, and a 6-week text before the guest books someone else. Two prompts for those two moments.

Prompt -- 30-second at-checkout rebook script (A)

Draft the 30-second at-checkout rebook script for [STYLIST NAME] at [SALON NAME]. Context:- Service today: [SERVICE + DURATION]- Guest last visit: [DATE] (gap: [N] weeks)- Realistic rebook window for this guest: [N] weeks- Seasonal hook: [summer humidity / holiday season / fall color refresh / wedding on file] Produce:- A 3-line spoken script the stylist uses at the register: - Line 1 names the next visit window - Line 2 names ONE reason to book now - Line 3 closes with a no-pressure confirmation- A 5-line text the front desk sends within 10 minutes of the guest leaving, with the booking link Tone: confident, friendly. Plain ASCII.

Prompt -- 6-week pre-empt rebook text (B)

Draft a 6-week pre-empt text for [GUEST NAME] at [SALON NAME]. Context:- Last visit: [DATE]- Service last time: [SERVICE]- Stylist: [STYLIST NAME]- Typical visit interval: [N] weeks- Seasonal hook (optional): [summer wedding season / back-to-school / winter holidays] Produce a 3-sentence text that:- Does NOT say "it has been N weeks since your last visit"- References [STYLIST NAME] by name- Ends with a booking link or a "reply to grab a slot" call-to-action Under 60 words. Plain ASCII.

Workflow 06 . Booking-Follow-Up Sequence (1d / 7d / 30d)

After the visit is when the loyalty is built. A 3-touch follow-up sequence keeps the visit top-of-mind without nagging -- use the prompts below for the day-1, day-7, and day-30 messages.

Prompt -- Day-1 thank-you text (A)

Draft the day-1 thank-you text [SALON NAME] sends to today's guest. Context:- Guest name: [NAME]- Service today: [SERVICE]- Stylist: [STYLIST NAME]- Recommended routine (one line): [ONE LINE -- e.g. "purple shampoo twice a week until the next visit"] Produce a 2-sentence text:- Sentence 1: thank-you (names stylist + service)- Sentence 2: the aftercare line from the stylist, in plain text, with a single call-to-action ("reply if any question comes up before your rebook") Under 45 words.

Prompt -- Day-7 stylists fade-recovery check (B)

Draft the day-7 check-in for [GUEST NAME] at [SALON NAME]. Context:- Service today: [SERVICE]- Stylist today: [STYLIST NAME]- Typical week-7 concern for THIS service: [e.g. fade on red / banding on highlights / brass pull / blowout dropped / keratin curl loosening] Produce a 3-sentence text:- Sentence 1: a check-in that does NOT ask "do you like it?" (it asks "is it living the way you wanted?")- Sentence 2: a one-line reassurance that names the typical week-7 concern and says the stylist saw it as a normal risk- Sentence 3: a soft offer to come in for a 5-minute touch-up if something looks off -- with a single tap-to-book line Under 70 words. Plain ASCII.

Prompt -- Day-30 rebook opener (C)

Draft the day-30 rebook opener for [GUEST NAME] at [SALON NAME]. Context:- Service last time: [SERVICE] on [DATE]- Stylist: [STYLIST NAME]- Typical visit interval for this guest: [N] weeks (4 / 5 / 6 / 8 / 12)- Today is week 4 of a 6-week interval -- opens a 2-week window for rebook Produce a 3-sentence text:- Sentence 1: warm opener (names stylist + occasion the guest told us about, if any)- Sentence 2: a single sentence on what rebooking NOW protects (a slot in [STYLIST NAME] schedule, before peak demand)- Sentence 3: a direct tap-to-book link, OR a "reply YES and I will hold your slot for 24 hours" call-to-action Under 60 words.

Workflow 07 . Reactivation for Lapsed Guests

A guest who lapsed 12 weeks ago is not a lost guest -- she is a guest who had a reason and ran out of patience with the rebook text. Two prompts: the warm reactivation, and the no-pressure seasonal-trigger offer.

Prompt -- Warm reactivation text for a guest at 8-12 weeks lapsed (A)

Draft a reactivation text for [GUEST NAME] at [SALON NAME]. Context:- Last visit: [SERVICE] on [DATE] -- about [N] weeks ago- Stylist then: [STYLIST NAME]- Note from the visit: [ONE LINE -- e.g. "pre-baby prep / change-of-season refresh / wedding we discussed"]- Today is [DATE] -- [SEASON] just shifted Produce a 3-sentence text:- Sentence 1: opens with the human hook from the visit note, NOT "we noticed you have not visited"- Sentence 2: names the seasonal trigger ("the season just turned and your last color was X")- Sentence 3: a low-friction tap-to-book or "reply YES and I will hold a slot this week" Under 60 words. Plain ASCII.

Prompt -- No-pressure seasonal trigger offer (B)

Draft a 1-line seasonal trigger offer for [GUEST NAME] at [SALON NAME]. Context:- Guest lapsed [N]

weeks ago after [SERVICE]- Today is the start of [SEASON]- Offer type allowed: priority booking OR a free add-on with next service (NO dollar-off coupons)- Direct one-line slot: she replies YES and we hold 30 minutesProduce a 1-sentence text that:- Names the season- Names the no-money-down offer- Closes with a single tap-to-claim lineUnder 35 words. Plain ASCII. No exclamation points.

Sub-track: Operations and Bookings

Salon AI Playbook

The fill-the-chair layer: how a slow Tuesday becomes a productive week, how a no-show becomes a recovered visit, and how the floor leader keeps the team productive between the rush hours.

Workflow 08 . Fill-the-Gap Same-Day Text

A 90-minute gap opened at 11am Thursday and your slowest chair has another empty hour at 2pm. Two prompts: the same-day fill text the front desk can send in 30 seconds, and a 1-paragraph flow to gate which guests get it (so the loyal renter does not get bombed with deals).

Prompt -- Same-day fill-the-gap text (A)

We have an opening today at [TIME] with [STYLIST NAME] at [SALON NAME]. Guest profile of someone who might take it:- Last visited: [DATE]- Typical service: [SERVICE]- Location: [NEIGHBORHOOD / ZIP]- Visit notes: [the guest's last stylist observation] Draft a 3-sentence text message that:- Mentions the stylist by name and the open time (NO "we had a cancellation" language)- Names one reason to come in today (a new product, a season change, a date-night occasion)- Ends with a single call-to-action: "reply YES and I will hold the slot" Tone: warm, direct. Under 60 words. Plain ASCII.

Prompt -- Send list gate (which guests get the fill text?) (B)

Build the send-list gate for [SALON NAME]'s same-day fill text machine. Inputs:- Open slot at [TIME] with [STYLIST NAME]- CRM guest list with last visit, last service, neighborhood, lifetime spend, no-show rate: [PASTE / HEADERS]- Brand rule: NO dollar-off coupons in the fill text Produce:- 6 ranking criteria in order (last visit recency / service-fit / stylist relationship / neighborhood / no-show rate / lifetime spend)- The hard exclude list (visits in the last 7 days / active complaints / booked elsewhere we know of / guests who opted out)- A 1-paragraph note on which 2-3 criteria can change between launches (so the floor lead can override) Plain ASCII.

Workflow 09 . Week-Ahead Utilization Note

The week-ahead utilization note is what a floor leader writes Sunday night before the week kicks off. It is based on real booking-fill numbers, not vibes, and ends with the single highest-leverage fill move.

Prompt -- Sunday-week utilization note (A)

Build a Sunday-week chair utilization note for [SALON NAME] for the week of [DATE]. Inputs:- Booking fill by stylist: [PASTE -- percent of available hours booked, one row per stylist]- Each stylist's service mix (color / cut / blowout / treatment split): [PASTE]- Any stylist with fill below [THRESHOLD, e.g. 60%]: [LIST] Produce a 3-block note:- "Chairs to move" -- which 2-3 stylists have the most open time and which guests to text first- "Slots to close" -- any slot where the stylist is already at or above target and should stop booking- "One action today" -- the single highest-leverage fill move the floor leader should make before noon Plain ASCII. Under 200 words.

Prompt -- Mid-week utilization recheck (B)

Build a Wednesday mid-week utilization recheck for [SALON NAME] for the week of [DATE]. Inputs:- Monday-Tuesday actuals vs Sunday's plan: [PASTE -- service-hour filled / no-show rate / walk-ins / walk-outs]- Wednesday-Friday open hours by stylist: [PASTE]- Any stylist who unexpectedly hit 100% (a

chance to upsell): [LIST]Produce:- 1-paragraph summary of where the gap is (the one bottleneck)- 2 fill moves for today (specific stylist + specific slot + specific guest from the list)- 1 cancel-or-move call (a low-yield slot that should rebook for nothing or move to next week)Under 150 words. Plain ASCII.

Workflow 10 . No-Show Same-Day Swipe-On

A no-show opens a 90-minute hole 11 minutes before the slot. The swipe-on text is speed-critical: it goes to the next most likely guest on the list, names no-show reasons, and offers the slot for 30 minutes. One prompt.

Prompt -- Same-day swipe-on for a no-show slot

A guest no-showed today at [TIME] for [SERVICE] with [STYLIST NAME] at [SALON NAME].Draft a 2-sentence same-day fill text to send to the next likely guest on our list (pull from guests who visited in the last 90 days for a similar service):- No mention of the no-show- Names [STYLIST NAME] and the open time- Ends with: "reply YES and I will hold it for 30 minutes"Under 40 words. Plain ASCII.

Workflow 11 . 48-Hour No-Show Follow-Up

Two days later, the guest who no-showed is the next priority -- but never with blame. One prompt for the warm 48-hour reach; no discount, no scolding, no false please-come-back.

Prompt -- 48-hour no-show follow-up (no blame)

Draft a 48-hour follow-up text for a guest who no-showed at [SALON NAME] on [DATE] at [TIME] for [SERVICE]Rules:- Does NOT say "you missed your appointment" or "you were a no-show"- Acknowledges the day with a neutral line like "we missed you Wednesday"- Offers ONE clear next step: reply to rebook OR tap a booking link- Under 55 wordsTone: warm, never guilt. Plain ASCII.

Workflow 12 . Two-Week Re-Engagement Offer

If no reply by week two, the next reach needs a low-money, high-value offer -- priority booking or a free add-on, NOT a percentage off. One prompt for the no-pressure two-week re-engagement text.

Prompt -- Two-week re-engagement offer

A guest no-showed [N] weeks ago and has not replied to the 48-hour follow-up. Draft a two-week re-engagement text from [SALON NAME].Guest profile: [SERVICE / VISIT FREQUENCY / STYLIST / LAST NOTE]Draft a text that:- Leads with a warm human opener OR a seasonal hook, NOT "we noticed you have not booked"- Offers ONE low-friction enticement (priority booking for the week OR a free add-on with her next service -- no dollar-off coupons)- Ends with a booking link or a "reply to grab a slot" call-to-actionUnder 65 words. Plain ASCII.

Workflow 13 . Day-60 Loyalty Renewal Nudge

A loyalty member who lapses costs 5x more to re-acquire than to renew. One prompt for the day-60 nudge that names the rate lock and the priority booking.

Prompt -- Day-60 loyalty renewal nudge

Draft a day-60 loyalty renewal nudge for [GUEST NAME] at [SALON NAME].Context:- Membership tier: [TIER / MONTHLY PRICE]- Renewal date: [DATE] (60 days out)- Stylist: [STYLIST NAME]- Priority perks: [LIST -- priority booking / rate lock / a free monthly add-on / member-only events]Produce a 4-sentence

text:- Sentence 1: warm opener (names guest by name and stylist)- Sentence 2: one line on what renewing keeps her (services, priority, rate lock)- Sentence 3: one reason to act now (before rates adjust / before peak season)- Sentence 4: a tap-to-renew link OR "reply YES and I will keep your membership active"Under 80 words. Plain ASCII.

Workflow 14 . Booking-Bench Stylist Training Plan

A new bench stylist or an existing stylist who just earned the chair is the highest-leverage training investment the salon has. One prompt for the 90-day ramp that takes the bench to a consistent 80% utilization.

Prompt -- 90-day ramp checklist for a new bench stylist

Build a 90-day ramp checklist for a new bench stylist at [SALON NAME] starting [DATE].Bench tier: [JUNIOR / MID / SENIOR]Services they are certified for: [LIST]Services they need to shadow before going solo: [LIST]- The salon's typical service mix: [PASTE color / cut / treatment %]- Booking system: [BOOKING SYSTEM NAME]- Target utilization after ramp: [%]Produce a week-by-week checklist, Week 1 through Week 13:- Each week: the single ramp task (which service to shadow, when to run the first solo consultation, when to take the rebook conversation at checkout unsupervised)- Owner: [FLOOR LEADER / NEW STYLIST / GM]- Sign-off marker: how the floor leader confirms the task is donePlain ASCII. One line per week.

Sub-track: Marketing and Retention

Salon AI Playbook

The visibility-and-revenue layer: before/after that look intentional on the feed, retail that lands at checkout, and a Google Business Profile that fills walk-ins on Monday morning. Three workflows per slot -- each prompt engineered for an under-5-minute output.

Workflow 15 . Before/After Instagram Caption

A before/after is 30 seconds of phone time at the chair. Two prompts: the chef-note-style caption that explains the transformation without overselling, and the alt-text that surfaces the photo in screen-reader results.

Prompt -- Before/after Instagram caption (chef-note style) (A)

Write a 90-word Instagram caption for a before/after at [SALON NAME].Service: [SERVICE -- e.g. lived-in balayage refresh, blunt bob, keratin smoothing]Photo notes: [shot at the chair / natural light / guest in frame at 3-4 angle / both dry]Anchor: [ONE OF: technique / seasonal color trend / the guest occasion]Stylist: [STYLIST NAME]Constraints:- One short opener (under 12 words)- 2-3 sentences on the service / transformation- One sentence inviting a comment or share- 5-7 hashtags in a single line at the end- Tag: @[STYLIST HANDLE] and @[SALON HANDLE]No emojis if the salon style is minimalist. Plain ASCII.

Prompt -- Alt-text for IG before/after (10-15 words) (B)

Write the alt-text for an Instagram before/after photo from [SALON NAME].Service: [SERVICE]Photo: [BEFORE NOTES] vs [AFTER NOTES]Identity rule: NEVER describe the guest (no skin tone, hair-length reference, or face shape -- just the technical change)Produce ONE 10-15 word alt-text line that:- Names the technique change- Names the tonal shift- Avoids the guest identityPlain ASCII.

Workflow 16 . Weekly Reel Shot List

A weekly Reel shot list is what the social manager shoots on Saturday morning before the floor opens. Two prompts: the 4-shot list and the 1-line caption summary.

Prompt -- 4-shot weekly Reel list

Build a 4-shot list for a 20-second Instagram Reel at [SALON NAME] for the week of [DATE].Services to feature (3 max): [LIST]Music cue: [GENRE / TEMPO -- e.g. upbeat pop, mid-tempo]Voiceover (optional): [1-2 SENTENCES OR LEAVE BLANK]Produce:- Caption (under 120 words) + a single-line hashtag line- 4-shot list: - Shot 1: [SECONDS 1-5] / [SHOT DESCRIPTION] / [CAMERA NOTE -- overhead, product in hand] - Shot 2: ... - Shot 3: ... - Shot 4: ...Visual language: consistent with a premium salon, not a product ad. No emojis.

Workflow 17 . Google Business Profile Weekly Post

A weekly GBP post is the lowest-effort visibility bump a salon has. Two prompts: the post itself (under 1500 chars) and the photo-pair guidelines that match the post.

Prompt -- GBP weekly post

Write a Google Business Profile weekly post for [SALON NAME] for the week of [DATE].Highlight of the week:- One service feature (e.g. a 2,400 sq ft patio install is a landscaper feature -- use a salon equivalent: a guest-led before/after of [SERVICE])Constraints:- Headline: 1 line, under 80 chars- Body: under 1500

chars, no emojis- Photo caption: 1 line- Call-to-action: 1 line that links to a real /book or /services destinationPlain ASCII.

Workflow 18 . At-Checkout Retail Recommendation Line

At-checkout retail is the highest-margin moment of the guest visit. One prompt engineered for a spoken line the stylist says without rehearsing.

Prompt -- At-checkout retail recommendation line (spoken, single SKU)

Draft the retail recommendation line for [STYLIST NAME] to use at checkout at [SALON NAME] for today's guest. Service today: [SERVICE] Guest's hair type / concern: [e.g. fine color-treated / frizzy / dry ends / scalp-sensitive] Top SKU to recommend: [PRODUCT NAME / PRICE] Produce a 2-sentence spoken line:- Opens with a specific observation ("I noticed your ends were ...") that the SKU directly fits- Names the SKU + ONE specific reason it fits the concern- NO "would you like to take this home today?" language -- name the SKU directly Under 35 words. Plain English.

Workflow 19 . Aftercare Routine Bundle Pitch

A 3-product routine bundle lifts AOV without a discount. One prompt for the spoken pitch + a 2-sentence follow-up text if the guest says "I will think about it".

Prompt -- 3-product aftercare routine bundle pitch

Draft a 3-product aftercare routine bundle pitch for [STYLIST NAME] to use after [SERVICE] at [SALON NAME]. Service: [SERVICE -- e.g. balayage, blowout, keratin] Guest hair type: [TYPE] Products in the bundle: [PRODUCT 1 / PRICE], [PRODUCT 2 / PRICE], [PRODUCT 3 / PRICE] Bundle price vs a-la-carte: [BUNDLE PRICE] vs [TOTAL] Produce:- A 1-paragraph spoken pitch under 80 words: - Names each product with a one-line rationale - Ends with the savings line- A 2-sentence follow-up text if the guest says "I will think about it": - References the specific concern - Asks for a reply OR links to the at-home page Tone: candid. Plain English.

Workflow 20 . Loyalty Tier Upgrade Offer

A guest who is one tier below the next is the easiest upsell on the list. One prompt for the upgrade offer that names what she already does and what she would unlock.

Prompt -- Loyalty tier upgrade offer

Draft a loyalty tier upgrade offer text for [GUEST NAME] at [SALON NAME]. Guest data:- Visited [N] times in the last 6 months- Average spend per visit: \$[AMOUNT]- Current membership tier: [TIER NAME]- Next tier: [TIER NAME] / [PRICE] / [ADDITIONAL BENEFITS -- priority booking / monthly highlight / product credit] Draft a 3-sentence upgrade offer text:- Sentence 1: names one thing she is already doing that the next tier covers (e.g. "you already book color every 6 weeks")- Sentence 2: states the monthly savings at her current visit rate- Sentence 3: ends with "want me to move you over? Reply YES and I will handle it" Under 70 words. Plain ASCII.

Adoption: the 30-60-90 rollout

Salon AI Playbook

- Day 0-30: Pick TWO prompts from Client Experience and ONE from Operations. Use them daily. Time yourself -- aim for under 5 minutes per draft.
- Day 31-60: Add the at-checkout retail line and one social caption per week. Build each as a saved template in your notes app or booking platform.
- Day 61-90: Layer in the loyalty renewal prompt and the bench stylist training plan. Two hours of GM time per week comes back.
- Day 91+: Test the no-show two-week re-engagement and the weekly Reel shot list. Quarantine any draft that sounds off-brand and refine the prompt.

SkillForge AI House rules for AI in salon operations

Salon AI Playbook

- Never let AI send a guest message under your name without reading it once. Drafts, not deliveries.
- Never paste guest PII (full name + phone + service record in one block) into a general-purpose AI tool unless the tool is on an approved client-data channel.
- Always verify AI-generated product recommendations against your current retail set. Product lines change quarterly.
- Before/after photos need guest consent. Confirm verbal or written OK before any caption goes live.
- Compliance: check your state board rules on AI-assisted client communications and any required disclosure language for promotional texts.
- Keep a manual log of every AI-assisted guest or candidate touch for the first 90 days. It is your audit trail and your prompt-tuning dataset.
- Watch for the "always-on rebook cadence" pattern: a prompt that runs every week and silently drifts out of step with the guest. Re-test the rebook prompt quarterly against a fresh guest set.
